

THE VETERANS AT BOWLING GREEN

Joint Meeting With the Daughters of the Confederacy of Carolina.

PREPARE FOR THE UNVEILING

Will Turn the Exercises of the Day Over to the Ladies.

(Special to The Times-Dispatch.)
BOWLING GREEN, VA., July 9.—Although this was not the regular term of court, but what is known as trades day, quite a large crowd gathered at the Bowling Green Camp met and adjourned the Bowling Green Chapter of Daughters of the Confederacy to be present, which meeting was held preparatory to the unveiling of the monument here on the 25th of July.

The committee who were appointed to select a suitable person to unveil the monument, reported the selection of D. S. Calk, of Company B, Ninth Virginia Cavalry.

T. D. Coghlin, chairman of the Building Committee, reported the completion of the monument, and the payment to the contractor of twelve hundred dollars, leaving a balance due on the same of three hundred dollars.

Appropriate resolutions were directed to be drawn up by E. C. Moncure and T. D. Coghlin on the death of Major R. O. Peabody, former commander of this camp. It was decided by the camp that the ceremonies attending the unveiling of the monument be turned over to the ten chapters of the Daughters of the Confederacy of this county.

The camp decided that a fee of twenty-five cents would be charged for dinner, except to old soldiers and the families of those who furnish dinner.

The monument, which stands directly in front of the courthouse, and ten feet from the street, is one of the handsomest erected in any county in the State.

It is twenty-five feet and eight inches high, and built of gray granite. The figure is also of gray granite and is a private with his gun standing in front of him.

If the weather is favorable there will be an immense crowd here at the unveiling on the 25th of this month.

COMPANY WILL DISBAND.

Probably Be Merged Immediately Into Another Company.

(Special to The Times-Dispatch.)
NORFOLK, VA., July 9.—Information received at regiment headquarters here is that Governor Swanson has ordered the Assistant Adjutant General of the State to proceed to Newport News on July 14th for an inspection of Company G, Seventy-first Virginia Regiment, "with reference to abandonment" for "inefficiency and incompetency."

Colonel C. C. Vaughan, Jr., commander of the regiment, recommended that the company be disbanded.

After disbandment and upon application to and with the approval of Colonel Vaughan, the members of the company may be mustered immediately into Company C, the other military company in Newport News.

Though Company G has an enrollment of between forty and fifty members, it has an active membership of but eighteen or twenty, and for this and other reasons disbandment was determined upon.

Captain George W. Fitchett, who recently resigned the command of Company G, has not been identified with it actively for some time, having moved to Norfolk. The company's first lieutenant, Newton H. Garthwright, was not long since court-martialed, the findings in his case now being before Governor Swanson for review. Second Lieutenant George R. Butler, of Company G, has accepted a position with a railroad, which carries him out of the city a good deal.

OPEN SALOONS.

Broad Significance of Recent Elections in Radford.

(Special to The Times-Dispatch.)
RADFORD, VA., July 9.—The victory of open saloons over the proposed dispensary system in the election Thursday brings to mind the fact that Radford is the only point in Southwest Virginia that has saloons, barring Bristol, which is on the edge of the Tennessee line, and Pocahontas, which is almost on the West Virginia boundary. In all of the great counties west of Roanoke these three towns are the only ones having licensed bars, though there are dispensaries in Abingdon and Pulaski.

This does not mean that this great section is on the water wagon by any means. In the mountain fastnesses are safe, nay, almost inaccessible, retreats, where moonshiners successfully evade the law, and quantities of the stuff are shipped from licensed towns. Seventy-five per cent. of Radford's trade is in customers in various parts of the mountainous Virginia.

The dispensary fight was hotly waged, but will hardly be renewed for some time to come, if ever. There is an effort on foot to circulate a petition for a local option election, but there does not seem to be much enthusiasm on the subject.

FIVE THOUSAND MEN.

Big Force of Tidewater Road to Be Further Enlarged.

HUMOR COVERED HEAD AND SCALP

Bothered With Itching for a Long Time—Found No Relief Until Cuticura Was Used—Kentucky Lady Now Completely Well.

WISHES SUCCESS TO CUTICURA REMEDIES

"After using Cuticura Soap, Ointment, and Pills, I am very glad to say I am entirely relieved of that itching humor of the head and scalp which I was bothered with quite a length of time. I did not use the Cuticura Remedies more than three times before I began to get better, and now I am completely well. I suffered with that humor on my head, and found no relief until I took the Cuticura Remedies. I think I used several cakes of Cuticura Soap, three boxes of Ointment, and two vials of Pills. I am doing all I can to praise the Cuticura Remedies, for they have done me good, and I know they will do others the same. Write me what you wish for your success." Mrs. Mattie Jackson, June 12, 1905. Mortonsville, Ky.

I have confidence in Cuticura and I would not take ten dollars for one box if I knew that I could not get any more." D. M. Robertson, Sept. 29, 1905. Newton, Minn.

On account of its proximity to the other buildings on the residential section of the island several houses and cottages of property would have been destroyed but for the efforts of the well-disciplined fire brigade.

S.S.S. CURES CATARRH

Catarrh cannot be washed away with sprays, inhalations and such treatment, nor can it be smoked out with medicated tobacco, cigarettes, etc. When you attempt to cure Catarrh with such things you are wasting time and allowing the impurities and poisons in the blood, which produce the disease, to get so firmly rooted as to become not only a disgusting trouble, but a very dangerous one. The annoying symptoms of ringing noises in the ears, "hawking" and "spitting," headaches, mucus dropping back into the throat, impairment to the senses of taste and smell, and a feeling of general debility, prove that there is a deep-seated cause for Catarrh. This cause is a polluted and unhealthy condition of the blood, and the disease cannot be cured until this is removed. The only way to get rid of Catarrh permanently is to purify the blood, and S. S. S. is the ideal remedy for this purpose. It soon clears the system of all impurities, purges the blood of all catarrhal matter and poisons, and effectually checks the progress of this disgusting and far-reaching disease. S. S. S. puts the blood in perfect order, and as this pure, healthy blood goes to every nook and corner of the body Catarrh is permanently cured. Book with information about Catarrh and medical advice free.

HUMANE SOCIETY OPPOSED TO AXE

Special Agent on Trail of Executioner Who Cut Off the Heads of Two Dozen Dogs.

MAYOR ORDERED THEM KILLED

The Licenses of Seven White Social Clubs Are Revoked.

(Special to The Times-Dispatch.)
NORFOLK, VA., July 9.—Special Agent Hunt, of the Portsmouth Humane Society, is camping on the trail of those dog executioners who slaughtered two dozen or more helpless canines on the Fourth with nothing more than an axe.

Mr. Hunt declares that if such a scene is enacted again he will certainly arrest the heartless executioners, and every one else with a hand in the affair. Mayor Reed is not opposed to the method of slaughter.

In view of the fact that the dog killers are acting directly under the Mayor's orders, an interesting complication of affairs may result should Special Agent Hunt put his threat into effect and arrest the executioners at the next killing.

WHITE CLUBS CLOSED.
Judge Hancok has revoked the licenses of seven white social clubs, against which Chief of Police Boush secured evidence, and through Commonwealth's Attorney John G. Tilton and State's witnesses, presented it to the court.

Not one case brought by Chief Boush failed. Thirty days has been allowed the defense for an appeal on the allegation that the State law under which Judge Hancok revoked the licenses is unconstitutional.

The clubs which lose their licenses are: The Hiawatha, Elizabeth, Star, Tipton Athletic, Cosmopolitan and Roanoke.

JAMESTOWN BOULEVARD.

D. M. Harding, B. O. Fontaine and W. S. Johnson, members of the Finance Committee of the Norfolk county board of supervisors, will make a trip to-morrow over the several proposed routes for the boulevard between Norfolk and Jamestown Exposition grounds.

John A. Codd, president of the board of supervisors, stated to-day that he thought it pretty certain that the committee would recommend the old county road route for the boulevard.

It is generally believed that the Finance Committee will recommend something like \$25,000 or \$30,000 to be expended on the boulevard.

READY TO TOW.

It is probable that the French line steamship America, which it was feared had been lost with 110 passengers and a crew of 40 aboard, while bound from a French port to New York, but which was towed to Bermuda with a broken shaft, will be towed to New York by the Norfolk wrecking steamer Rescue, of the Merritt & Chapman Derrick and Wrecking Company. The Rescue is now waiting orders to sail.

She has steam up and can put to sea at a moment's notice, and has already cleared through the custom house.

Croxton, formerly of Richmond, and once passenger agent of the Southern Railway at Norfolk, but now traveling passenger agent of the Southern, with headquarters at New York, is spending a few days in the city among his many friends. It is stated that the extremely hot weather of a few days ago damaged the tomato crop in the Northern Neck to the extent of several thousand dollars, the sun having blistered a large portion of the tomatoes. This is one of the most important crops raised in the Northern Neck, owing to the large number of canning factories in that section.

A LOG TRAIN PLUNGES INTO A BIG WASHOUT

Body of Fireman Dan Presson Buried in the Wreck.

(Special to The Times-Dispatch.)

WAKEFIELD, VA., July 9.—A log train on the Berry, Sussex and Southampton Railway was wrecked near Chub this morning, killing the fireman, Dan Presson. The train was in charge of Engineer Sidney Barker. The engine was turned over by several log cars piled on top. The wreck was caused by a washout on the road bed.

The severe storm of last night damaged things considerably in this section. Mr. Presson, who lost his life was working extra; he was the only support of his widowed mother in Berry county. He had only been in the employ of the company a short time. The wrecking crew was sent promptly to the scene. His body had not been recovered late to-day as it was under the debris.

The Most Popular Chew Made

There is real enjoyment in chewing SCHNAPPS tobacco. That's why it has won millions of chewers every year, until now more is sold than all similar tobaccos.

SCHNAPPS, the most popular product of the Reynolds factories, is manufactured in the very heart of the Piedmont tobacco belt, known to the world as producing tobacco with an aroma so delightful and appetizing that it introduced and popularized the chewing of tobacco.

The Clean, Pure Chew

is manufactured by the cleanest and most healthful processes ever devised, under the direction of men who have made the chewing tobacco business a life study, and who have managed the R. J. Reynolds Tobacco Company since 1875.

Only choice selections of thoroughly cured leaf are used in SCHNAPPS, and expert tests prove that this class of tobacco requires and takes a smaller amount of sweetening than any other kind of tobacco grown—and that it has a wholesome, stimulating and satisfying effect on chewers, besides being the most economical.

There are a great many imitations claiming to be "just as good" as

WHEN TAFT CALLED NAME OF BRYAN

(Continued from First Page.)

often raised by politicians among them, is merely for the purpose of solidifying their vote on the Democratic side, and has no real justification in fact.

Distinguished Southern Senators, referring to the States of this section, have declared in Congress that they are not in the habit of entering into business with the American Union which have not a proper representative relation to this country.

It is the higher spheres of political life. If this is true, it is undoubtedly due to the fact that the Southern people have not developed politically the same enterprise, the same independence of action, the same progressive spirit, and the same regard for future development as they have in agriculture and business.

Had they kept up with the times, had they at the ballot box expressed their real sentiments on the living issues of the present, they would have been able to elect a representative of their own kind.

They have been frightened by a specter and a shadow of the past, their political ignorance is conspicuous in the fact that they have not developed politically the same enterprise, the same independence of action, the same progressive spirit, and the same regard for future development as they have in agriculture and business.

Carried in the pocket of the Democratic party for years, while long ago they were paid by either party to their views in national matters as compared with the views of the voters of the North, who are now living modern issues in the great national elections. Although much of the present faith of the South is dependent upon protective tariff, its representatives in a national convention vote unanimously for the proposition that protective tariff be a monopoly of the many for the benefit of the few.

Panama Canal.

Again, no part of this country is so vitally interested in the construction of a great waterway to connect the Atlantic and Pacific Oceans as the isthmus of Panama as the South. It was indispensable to this enterprise that the treaty was made with the Republic of Colombia, and that the Republic of Colombia should be promptly confirmed, and yet the majority of the representatives of the South in the Senate refused to ratify the treaty.

It is a feature of modern life. The organization of capital has reduced the cost of production, and has, therefore, contributed to the increase of the standard of living. The organization of labor has undoubtedly bettered the condition and raised the wages of labor. But, in the power of the organization of labor, the hands of particular individuals, it would be unreasonable to expect that there should not be temptations to the greed and oppression.

When these are yielded to by the few, as compared with the many exposed to want and the law is violated. It is no reason for hygienic order. It is no reason for giving up the system of private property, or forbidding the formation of corporations or granting the government the right of trade unions. It is no ground for the advocacy of socialism. We must take the abuses in the good old Anglo-Saxon way, by the use of the law, and by the fitness of the thing, place our confidence in the public servants who show themselves alive to the needs, and courageous enough to stand up to the offenders to conviction.

Extravagance.

For want of other material, we shall hear a great deal in the campaign of the extravagance of the present Republican Congress. As a matter of fact, the increases in appropriations have been largely due to greater facilities in the distribution of mail matter by the extension of rural delivery, and are not, with the exception of about \$10,000,000, the greater receipts of the Postoffice Department, so that, while the expenditures are likely to be \$10,000,000, the receipts will amount to \$10,000,000. I do not suppose that the Democratic party will object to the appropriation of \$10,000,000 for the Panama Canal, which will be a permanent benefit to the country, and drawing a per cent. interest on the theory that, as this canal is to be permanent, it is to be a permanent benefit to the country, and drawing a per cent. interest on the theory that, as this canal is to be permanent, it is to be a permanent benefit to the country.

It is no reason for giving up the system of private property, or forbidding the formation of corporations or granting the government the right of trade unions. It is no ground for the advocacy of socialism. We must take the abuses in the good old Anglo-Saxon way, by the use of the law, and by the fitness of the thing, place our confidence in the public servants who show themselves alive to the needs, and courageous enough to stand up to the offenders to conviction.

Need a Moses.
